# **WARNING:**

## **Fraudulent Purchase Orders**

HCI provides Hazardous Waste Transportation & Disposal, Environmentally Related Construction Services and 24/7 Emergency Chemical Spill Response. HCI purchases, on a very limited basis, computer equipment, video equipment or office supplies in bulk through new vendors.

HCI is currently working with federal, state and local law enforcement agencies on a series of fraudulent purchase orders submitted, with criminal intent, using HCI's name and company information. To assist in protecting your company from the fraudulent activities HCI has created a Fraud Prevention Department.

If you have received an email order, fax order, phone order or purchase order feel free to verify the validity by calling HCI's verified number, (951) 280-0298 and ask to speak with our Fraud Prevention Department.

HCI has noticed certain discrepancies with email addresses, phone numbers and website addresses. This information may be helpful should you receive a request to open an account for HCI. Please email all information you've received to: [stopfraud@hcienv.com](mailto:stopfraud@hcienv.com). We will then forward to authorities when applicable.

If your company is a victim of fraudulent purchasing attempts we urge you to contact your local law enforcement.

**HCI Is Not Responsible For Any Unauthorized Fraudulent Purchase Order Fulfillment.**
